

VERBENA PLANT NAMED 'SUNTAPILABU'

5

ABSTRACT OF THE DISCLOSURE

Disclosed herein is a new and distinct variety of  
Verbena plant having a decumbent and compact growth  
10 habit. The Verbena plant has abundant branching, the  
whole plant remaining in bloom for a considerable period  
of time. The flowers are formed in profusion in a spike  
and the petals display a strong purple color. The  
blooming period is from April to November, and the  
15 flowering duration is long. The plant exhibits high  
tolerance to heat, high resistance to rain, pests and  
disease, particularly powdery mildew.
